I am writing to express my interest in the Frontend and FullStack Developer position. I have strong skills in React.js, TypeScript, Next.js, and Node.js, with hands-on experience in C# and GraphQL.

In my recent role at DeepAlert, I developed responsive interfaces and improved website performance by 35%. I also enhanced accessibility and reduced page load times significantly. My experience with MWEB and Fireworkx Internet further strengthened my ability to create user-friendly applications.

I am excited about the opportunity to contribute to your team and deliver high-quality web solutions. Thank you for considering my application. I look forward to discussing how I can help your company.
